

## eBook Reader Pyrus<sup>®</sup> mini

### eBook Reader with 4.3" Digital Ink<sup>®</sup> display in 3 different colors

#### Colorful, small and cheap

The eBook Reader Pyrus mini is the smallest of its kind and combines maximum portability with great reading comfort. The handy Reader with a flicker-free 4.3" (10.9 cm) display is available in the colors black, blue and pink.

#### Lightweight

The newcomer of the popular Pyrus series is with 111 grams a lightweight and fits into every shirt pocket. On the sharp Digital Ink display, with a resolution of 600 x 800 pixels (230 dpi), texts can be read pleasantly even in direct sunlight.

#### Best readability

Six different font sizes ensure best readability. The device supports the common eBook formats, such as ePUB and PDF (incl. Adobe<sup>®</sup> DRM), TXT, FB2, RTF as well as PDB. The intuitive bookmark manager allows adding bookmarks as well as the direct selection via an appropriate list. Images in the formats JPG, BMP or PNG are displayed and can be played back as a slideshow.

#### Sufficient memory

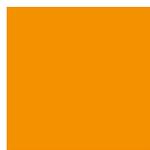

The internal memory offers with a capacity of 2 GB lots of space for up to 2.000 eBooks. Via a built-in microSD/microSDHC card reader, the memory is expandable up to 32 GB, so that the Pyrus mini has enough space for images and Co. with an appropriate memory card.

#### Long run time

The new TrekStor Reader is 128 mm x 85 mm x 9 mm small and has a li-polymer battery, which supplies the eBook Reader with power for weeks.

#### TrekStor eReader Suite

To make the entry into the field of eBooks for end users even easier, TrekStor has developed its own software. This TrekStor eReader Suite informs not only about news releases and grants access to the eBook store but also reports on new firmware updates, available storage or FAQs. When commissioning the Pyrus mini, users can decide, if they want to use the free TrekStor eReader Suite or not.

## Technical details
