

SurfTab[®] breeze 7.0 plus

7" Android™-Tablet with dual core CPU, 4 GB memory and 512 MB RAM

The new TrekStor SurfTab breeze 7.0 plus is emerging as an impressive newcomer on the tablet market. The range of features it offers is impressive.

Twice as strong thanks to dual-core technology

The breeze 7.0 plus features the Rockchip dual-core processor with 1.0 GHz in order to allow all the applications the tablet offers to run faster and smoother. The strength of the processor is the key in the new generation of tablets on the market, and the breeze 7.0 plus is a newcomer invigorated to take to the stage.

A fresh breeze

Benefit from the new Android 4.2.2 (Jelly Bean) operating system. The range of new functions and the easy-to-operate user interface of the new Android-OS make it even easier for you to operate the multi-touch display.

Sharp detail

The significantly improved display resolution with 1024 x 600 pixels offers excellent conditions for fine nuances in order to showcase the colourful world of film and games in brilliant colour and even more detail.

Cutting a good figure

The new breeze 7.0 plus cuts a good figure: Weighing 280 g and just 9,7 mm thick, it's only right that it's being described as light and slim. You can feel the quality of the materials and the metallic, anthracite-coloured rear side is distinctively chic.

End-to-end offer

The webcam allows you to video chat with friends to stay in touch. Certified access to Google Play™ is your portal to thousands of apps that cater for every taste. What's more, the breeze 7.0 plus is well-equipped for multi-media HD experiences and excellent gaming: It supports a wide range of formats, making it possible to play most image, audio and video formats as well as MKV files with the H.264 codec. The powerful Mali-400 MP2 graphics processor also supports many sport and 3D action games.

The breeze 7.0 plus offers you all that you need of a tablet – whether you want to write and read e-mails, surf the Internet, watch films, read books or play games.

SurfTab[®] breeze 7.0 plus

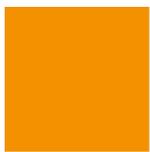

7" Android™-Tablet with dual core CPU, 4 GB memory and 512 MB RAM

Building bridges across the world

The SurfTab breeze 7.0 plus features all of the important connection options in order to stay connected. In particular, the WLAN standards supported simplify data exchange and interaction with other devices. The Micro USB host port provides you with a wired method to transfer data and increase storage space. What's more, you can also connect your headphones.

The microSD/microSDHC card slot makes it possible to indirectly exchange data with friends and family: It allows you to extend the storage capacity of the breeze 7.0 plus by up to 32 GB, ensuring you always have enough space for the images, films, clips and e-books that you want to exchange and share with your family and friends.

At an affordable price and thanks to the range of features it offers, the TrekStor SurfTab breeze 7.0 plus is the perfect gateway to the mobile world.
