Windows 10

SurfTab[®] duo W1 LTE

A 2in1 SurfTab and notebook, with Windows 10 Home, LTE, Full HD IPS display and Intel[®] Atom[™] x5 processor

10.1" full HD IPS display

There's a lot to take in when there's so much on offer: With immediate effect, you can enjoy Internet access, pictures and videos on your SurfTab duo with unprecedented image sharpness. IPS technology, together with a Full HD resolution of 1920 x 1200 pixels, provides sharper details, brighter colours and clearer pictures. Enjoy an outstanding visual experience that's in a class of its own, and experience the exhilaration that comes from feeling you are right in the centre of the action.

Also suitable for perfectionists

The 10-point multi-touch display of the new SurfTab duo is equipped with a practical, high-precision pen input feature in order to make entering information even easier and to deliver even more accurate results. Users can now use a compatible screen pen (we recommend the TrekStor Active Stylus 1) to individually select the desired point on the display – without getting fingerprints all over the screen!

Windows 10 is here!

The SurfTab duo is one of the first devices to be issued with the new Windows 10. This enables you to do more with ease – anytime, anywhere and across device boundaries. The preinstalled Microsoft Office Mobile Apps (Word, Excel and PowerPoint) and 5 GB of online storage via OneDrive together with OneNote turn your SurfTab duo into your very own small office – no matter where you are.

High speed

With its new Intel[®] Atom[™] x5 processor, the SurfTab duo combines powerful performance and fantastic battery life in an impressive two-in-one device.

The SurfTab duo now comes with high-speed Internet!

As the latest mobile Internet standard, 4G/LTE enables high-speed loading of Web pages, fluid streaming and top-class gaming experiences. So while those around you are still waiting, you can sit back, relax and let yourself be carried away into a world of high-speed browsing and fast downloading!

For use anywhere and everywhere

In addition to the usual high-end features you have come to expect (including two cameras, Bluetooth[®], WiFi, a memory card reader, a microphone, HDMI[™] and an audio port), the new SurfTab duo offers a practical pen input option, ultra-fast USB 3.0 and two fully functional USB 2.0 ports.

 **Windows 10**

SurfTab[®] duo W1 LTE

A 2in1 SurfTab and notebook, with Windows 10 Home, LTE, Full HD IPS display and Intel[®] Atom[™] x5 processor

Not only that, but the versatile, two-in-one SurfTab duo comes with a fully functional QWERTZ keyboard (German keyboard layout) for comfortable typing on the go. The magnetic keyboard dock guarantees stability while the individually adjustable hinge always ensures you have the optimal angle for typing and reading. Round this off with an elegant, high-quality aluminium housing and you are guaranteed to make the right impression at all times.
