SurfTab[®] xintron i 10.1 3G

10.1" Android[™] tablet with Intel[®] Atom[™] x3-C3230RK processor, 3G, 8 GB memory and 1 GB RAM

The TrekStor SurfTab xintron i 10.1 3G offers everything you need, including all the extras such as a powerful quad-core processor, 3G and GPS.

A processor with the latest architecture

For this reason, we opted for a processor from the Intel[®] Atom[™] x3 series released in early 2015. With the 64-bit quad-core Intel[®] Atom[™] x3-C3230RK with up to 1.1 GHz, the xintron i 10.1 3G features an extremely energy-efficient processor thanks to the shortest possible cable paths. It's a real SOC, combining perfectly matched drivers and interfaces to always deliver 100 per cent performance for all of the tasks at hand. Energy-efficient construction and maximum effectiveness: That's the meaning behind Intel[®] inside!

Intel[®] Atom[™] x3 brings along ...

... one thing right off the bat: 3G. This ensures that you are at the heart of the action, no matter where you are. With the xintron i 10.1 3G, you can be online at any time, retrieve important information and respond accordingly, just have fun – or play on or against the Internet.

It goes without saying that the xintron i 10.1 3G masters the old standards like WiFi and Bluetooth[®], ensuring interplay with the digital world runs smoothly at all levels. Stay in touch using video chats or e-mails, play to your heart's content and stream the latest HD films.

Simply expand your mobile freedom!

Mobility

The SurfTab xintron i 10.1 3G even features a GPS module. Discover the world, find popular hotspots or track down a stylish bar. Your xintron i 10.1 3G knows exactly where to go with its precise GPS system.

Stay ahead in the (Android[™]) scene

With the SurfTab xintron i 10.1 3G, you enjoy all the benefits of the latest Android 5.1 (Lollipop), including the clearly structured look and simplified operation, the neatly arranged multitasking view and heads-up notifications, integrated power saving mode and much more.
