SurfTab[®] xiron 7.0 3G

7" Android™ tablet with quad core CPU, 3G support, 4 GB memory and 512 MB RAM

We thought about what could be missing from our xiron series of SurfTabs, and this is what we came up with:

Mobile and more mobile: 3G + GPS

Over time, you've become used to hunting down WiFi hotspots in order to be able to quickly google something. More and more apps require an Internet connection now, too. Up to now, it's been necessary to use an external data stick or your smartphone for this, but WiFi is a power drainer and it asks a lot of your smartphone ...

From now on, however, this is no longer necessary: The integrated 3G module makes it possible to use your SurfTab on the go without any restrictions and keeps you up-to-date at all times with ease.

Stay connected!

You can enjoy mobile Internet when you're on the move thanks to the integrated 3G module and a data card**. Maybe you're sitting on a train and want to fight off boredom by reading an article from a media library or perhaps you're on a city break and want to call up some information about architectural buildings or the best restaurants in town or maybe you're just out shopping and decide to go to the cinema on the spur of the moment but want to check the listings first: It's times like these that you'll truly appreciate your SurfTab xiron 7.0 3G – You'll always carry it with you: At 7 inches in size, it's not too big and it's not too small.

You're on the right track ...

Are you an out-of-towner travelling on the roads around London? Are you new to a big city? Have you found yourself in an unfamiliar town? With the xiron 7.0 3G by your side, you have every destination right before your eyes.

Your SurfTab navigates you to your destination safely using the integrated GPS module. Regardless of whether you're travelling by car, by bike or on foot, you no longer need to fear getting lost in the urban jungle or taking the wrong exit off the motorway.

All-inclusive package

The xiron 7.0 3G doesn't miss a beat: Even the car cradle and the car charging cable are included in the delivery. The car cradle is attached to the windscreen using the suction cup mount, giving you full visibility of the road ahead. It is designed with a full tilt and swivel so that you can perfectly position your xiron 7.0 3G to suit your requirements. This way, you always have the best-possible view of your navigation tool and your destination is always right under your nose.

Alongside these extras, you also benefit from the ample features you have come to expect from the SurfTab xiron series:

SurfTab[®] xiron 7.0 3G

7" Android™ tablet with quad core CPU, 3G support, 4 GB memory and 512 MB RAM

The fast quad-core processor with the perfect synergy from 1,2 GHz and 512 MB RAM effortlessly tackles even the most complex of multi-tasking challenges. It plays high-resolution videos and action and 3D games smoothly. The 7" (17,78 cm) multi-touch display supports processor performance by displaying the quality provided in brilliant colours and impressive details. You can enjoy every moment.

It goes without saying that the SurfTab xiron 7.0 3G runs the latest **Android™ 4.2.2**, allowing you to benefit from the intuitive user interface, a large selection of apps and a range of options to personalise your SurfTab.

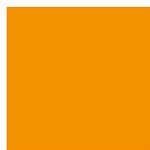

Connecting to the outside digital world is a snap, as **all of the necessary interfaces** are on hand, including a Micro USB port with USB host support, a microSD/microSDHC card reader and a headphones port. And let's not forget the two integrated cameras, which you can use to keep in touch with family and friends via video and share home-made videos and photos.

It's primarily **the wireless interfaces** (Bluetooth[®] and fast WiFi) that give you the complete flexibility required to comfortably operate your SurfTab. They allow you to stream your favourite videos and photos. You can also listen to your favourite music using the Bluetooth headphones or the corresponding speaker without getting tangled in hanging cables. Share everything with your friends, family and all those you love. React and respond to all kinds of messages without delay.

3G and GPS round out the portfolio, delivering flexibility and mobility.

Everything is packed into an elegant design, allowing you to show off your SurfTab xiron 7.0 3G. It's only 10,5 mm thick, weighs just 270 g and feels great to touch.

This makes the SurfTab xiron 7.0 3G an all-round carefree package.

Technical details
