

DataStation® pocket capa

External 2,5" hard drive in black

Mobile Storage

Its handy format of 12,7 x 7,8 x 1,7 cm that makes it to the perfect data storage for the road and with only 233 grams it is a real lightweight. Since the TrekStor DataStation pocket capa gets its current directly via the USB connector, it is independent from an external power supply.

Durable design

The black housing made of high quality aluminium impresses through its elegant design. It also ensures optimal heat dissipation and thus ensures an especially long life time. The auto off technology allows modern power-saving management: The hard drive is put into standby mode when it is not used for more than twenty minutes. Therewith the DataStation pocket capa works efficiently and safely.

Fast file transfer

Through the Hi-Speed USB 2.0 connector the DataStation pocket capa offers a very fast data transfer. The hard disk is also pre-formatted and ready for use without a driver. Supported are all major file systems of Windows®, Linux® and Mac® as well as the operating systems Microsoft Windows 7 / Vista® / XP, Mac® OS X from 10.3 and Linux from Kernel 2.4x.

Practical software

Included in the delivery of your new TrekStor product is a Special Edition of Radiotracker 6. With the popular web radio software Radiotracker 6 you can listen to music from more than 30,000 web radio channels and countless podcasts hören and record up to seven channels simultaneously.

Radiotracker 6 cuts music titles automatically and provides them with the available information and even the album cover.

In addition, as a user of Radiotracker 6 Special Edition you have the possibility to buy Radiotracker 6 Platinum at a cheaper price. Radiotracker 6 Platinum offers further functions, such as the systematic search for an artist or a song in all available internet radio stations!
