DataStation® pocket iTravel

External 2,5" hard drive with USB 3.0 interface, preformatted for Mac®and PC

The silver-colored, elegant DataStationpocket iTravel (data transfer rate read/write: up to 119,6 MB/s / 121,6 MB/s with USB 3.0 and up to 36,8 MB/s / 37,1 MB/s with USB 2.0) makes saving files through the SuperSpeed USB 3.0 connector a children's play and thus offers the continuous backup and exchange of data.
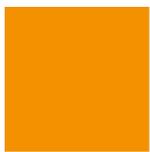

The DataStation pocket iTravel is the ideal memory expansion, both for your Mac® as well as your PC and offers the perfect, fast solution for den mobile use. Because no matter, whether the hard drive is used at home or on the go – it can be transported easily and without much effort.

Compact and light
The super-compact 2.5" hard drive weighs just 200 g and fits thanks to the dimensions of 115 mm x 75.5 mm x 12.5 mm (H x B x T) into every pocket. The high-quality aluminium housing of the DataStation pocket iTravel looks elegant and provides optimal heat dissipation, extending the life of the drive compared to plastic housings.

No external power supply required
The DataStation pocket iTravel requires no external power supply as it relates this through the USB port (white USB 3.0 cable is included in the delivery). Since the hard drive is preformatted with FAT32, it is ready for use immediately both for PC and Mac.

Technical details
