

DataStation[®] pocket pace 3.0

External 2,5" hard drive with USB 3.0 connector

The black-colored, elegant DataStation pocket pace 3.0 makes saving files through the SuperSpeed USB 3.0 connector a children's play and thus offers the continuous backup and exchange of data (data transfer rate read/write: up to 111.5 MB/s / 91.4 MB/s with USB 3.0 and up to 30.3 MB/s / 23.2 MB/s with USB 2.0).

You can use your DataStation pocket pace 3.0 of course also with all devices that have an USB 2.0 or USB 1.1 connector, for example computer, media player or game consoles.

The DataStation pocket pace 3.0 is the ideal memory expansion and offers the perfect, fast solution for mobile use. Because no matter, whether the hard drive is used at home or on the go – it can be transported easily and without much effort.

Compact and light

The super-compact 2.5" hard drive weighs just 180 g and fits thanks to the dimensions of 78 mm x 14 mm x 127 mm (W x H x D) into every pocket. It comes in a high-quality plastic housing and looks elegant.

No external power supply required

The DataStation pocket pace 3.0 requires no external power supply as it relates this through the USB port (USB 3.0 cable is included in the delivery). Since the hard drive is preformatted with NTFS, it is ready for use immediately.

Technical details

Hardware

Internal storage	500 GB*, 1 TB*
Interface	1 x Micro-USB 3.0 (with host function)
Color	Black
Dimensions (W x H x D)	78 mm x 14 mm x 127 mm
Weight	approx. 0.18 kg
Type of housing	Plastic
