

eBook Player 5M

eBook Reader with 5" TFT display, MP3 player, photo and movie function

Multimedia at its finest

The TrekStor eBook Player 5M with a 5" display has a dull TFT display and an orientation sensor that automatically switches between portrait and landscape format. Additionally, a photo viewer with slide show function as well as MP3 and a movie player are on board.

Thanks to the exposure of the screen you can read in the dark without an external light, for example while baby-sitting or while the partner is sleeping. Texts in the eBook formats ePUB (including Adobe[®] DRM), PDF and TXT are supported and are displayed in 5 different font sizes and can be enlarged additionally by using the zoom function.

Internal memory and memory expansion

With a capacity of 4 GB, the internal memory offers a lot of space for eBooks, saving you the takeaway of heavy books for holidays. With an integrated card reader the memory is not only expandable to 32 GB, but you also have the opportunity, to look at your just shot holiday snapshots via the anti-glare display.

Because the 5" devices read microSD/microSDHC memory cards. For easy uploading, the device has a copy function, so that the data can be copied without computer directly from the memory card onto the eBook Player. Pictures in the formats JPG, BMP, GIF and PNG can also be displayed with the slideshow function – either with or without background music and thanks to the thumbnail view a mini preview of the image files is possible. An intuitive folder navigation ensures the easy finding of files.

Music

The integrated MP3 player offers 9 equalizer settings, ID3 tag display, shuffle function as well as 8 repeat functions. Files with the audio formats MP3, WMA, OGG or WAV can be played back via the integrated loud speakers or the 3.5 mm earphone jack. Matching earphones are supplied with the player.

Movie function

The model 5M provides an additional video function and supports the file formats respective the codecs, such as AVI, MKV, M2TS, H.264, WMV9/VC-1 and MPEG4.2SP/ASP.

Long reading pleasure

The built-in Li-polymer battery provides up to 8 hours reading and visual pleasure or up to 30 hours of music enjoyment.
