## eBook Reader Pyrus<sup>®</sup> maxi

### eBook Reader with 8" Digital Ink<sup>®</sup> display

The largest representative of the Pyrusseries has a 8" display for an optimized, whole-page display, as for example in PDF format. Due to it's 6 levels in font-size, you can adjust the Display to your individual reading habits. The Pyrus maxi supports all common eBook formats such as ePUB, PDF (including Adobe<sup>®</sup> DRM), TXT, FB2, RTF and PDB).

Like all devices in the Pyrus series, Pyrusmaxi is furnished with the Digital Inkdisplay and offers flicker-free reading, reflection-free even in the case of direct sunlight. Its intuitive bookmark system makes it possible to quickly mark individual pages and the newly designed interface offers an even better overview and increased ease of use.

The extremely light Pyrus maxi weighs only 309 g and, thanks to its rubber-coated surface, fits comfortably and securely in the hand. With around 4 GB space, the internal memory offers space for around 4,000 eBooks. Via its integrated microSD-/microSDHC card reader and a fitting card the total memory can be expanded with up to 32 GB.

## Technical details

### Hardware

---

<b>Memory</b>	4 GB
