

## HomeServer e-TRAYz

### Network attached storage (NAS) with extensive server functions

#### Server technology for home networking

Safe, central and for users accessible – with the TrekStor HomeServer e-TRAYz the networking from computers and home entertainment systems inside the own home becomes reality quickly and easily. Large amounts of data such as movies, photos and music can always be reached centrally – from the home network or on the road via the Internet.

In that way, also friends and family members can see your newest photos and movies and even upload their own files onto the HomeServer e-TRAYz. You decide who is able to access your personal e-TRAYz side and who may use the practical RapidBox. With this handy upload function everyone who knows the URL of your eTRAYz page, can conveniently upload the files, without being logged into your system immediately. For each upload, an URL is given that you can send to as many people as you would like to. This function can be deactivated at any time, so that you always have the full control over your files.

#### Lots of room for your media

The HomeServer e-TRAYz is a network attached storage (NAS) with extensive functionality and a high-speed Gigabit LAN port. Currently the memory is expandable up to 4 TB storage capacity (using 2 TB hard drives) and thus offers plenty of room for your media collection.

#### Simple operation

Thanks to the e-TRAYz Connector (for Windows® operating systems) and DDNS, you will have an easy access to your data via the Internet at any time. On your computer the HomeServer e-TRAYz appears as a local drive. Thus you can transmit files easily by drag[&] drop from your PC to the server.

#### Practical apps

Via the e-TRAYz app installer, you can expand your home server easily with practical applications, for example for statistics, photo galleries or something like that. The app installer is already preinstalled on your device.

#### Even more data security

If you run the HomeServer with two hard drives, the RAID 1 function allows through the automatic mirroring of your data an even higher protection against data loss.

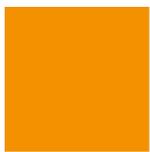

Through the integrated UPnP AV server, not only computers with Windows®, Mac® and Linux® operating systems have an easy access to your media files, but also other devices such as the TrekStor TV, the Playstation 3 or other media player supporting UPnP AV.

#### One touch copy

Copy the data from attached USB 2.0 storage devices. Two USB host ports allow moreover a simple and fast extension of the memory.

#### Extensive server function

The HomeServer e-TRAYz opens up many options of use: Web server, FTP, NFS, SMB/samba, print server, UPnP AV and iTunes® server.

## Technical details

### Hardware

---

<b>Memory</b>	1 TB, 2 TB, KIT (without hard-disk)
<b>Interface</b>	1000/100/10 MBit RJ45 Ethernet, USB Host (1 x Hi-Speed USB 2.0 and 1 x USB 1.1)
<b>Color</b>	anthracite
<b>Dimensions (W x H x D)</b>	177 mm x 122 mm x 81 mm
<b>Weight</b>	approx. 820 g (only the device without accessories)
<b>Type of housing</b>	Aluminum / plastic
<b>Supported hard-disk models</b>	SATA (1 - 2 x SATA 3.5" HDD)
<b>Form factor</b>	3.5 inch
<b>CPU</b>	OXE8xx with ARM9 Core (370 MHz)
<b>Internal memory (RAM)</b>	128 MB
<b>Max. HDD capacity</b>	2 x 2000 GB = 4 TB <sup>1</sup>

### Power

---

<b>Power supply</b>	External power supply (100 V - 240 V) safety class 2
---------------------	--

### Communication with the PC

---

<b>Supported operating systems</b>	Microsoft Windows <sup>®</sup> 7 / Vista <sup>™</sup> / XP, Mac <sup>®</sup> OS X from 10.3.x, Linux <sup>®</sup> from Kernel 2.6.x
------------------------------------	--

### Network functions

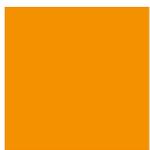

---

<b>Server functions</b>	Webserver, FTP, NFS, SMB/Samba, printserver, UPnP AV, iTunes <sup>®</sup> server
<b>Remote Access / Clients</b>	e-TRAYz Web (via browser / Windows <sup>®</sup> , Mac <sup>®</sup> OS X, Linux <sup>®</sup> ), e-TRAYz Connector (access via drive letter) under Windows <sup>®</sup> XP/Vista <sup>™</sup> /7 (32 Bit)
<b>Download and filesharing services</b>	e-Downloader, e-Torrent, RapidBox

### Other characteristics

---

<b>Package contents</b>	HomeServer e-TRAYz, CD, quick guide, power supply (100 V - 240 V), network cable
-------------------------	---

## Technical details
