

## LIVE-TV USB-Stick

### USB-Stick with LIVE-TV software and recording function

On the LIVE-TV USB-Stick the LIVE-TV software is preinstalled. This software allows to receiving web radio and TV streams on every web-enabled PC. A practical recording function of the software allows to record web radio shows and TV streams directly on the USB stick. Thanks to its rugged, two-tone rubber case, it is insensitive against vibrations and hits; even dropping down doesn't matter. The LIVE-TV is bootable and equipped with a LED indicator.

## Technical details
