

MiniPC W2

Small-format PC with Windows 10 Home, Intel Inside[®] and passive cooling

'Nomen est omen'

... nowhere is this more true than with the TrekStor MiniPC W2.

It stands out on account of its remarkably high performance and commercial connection potential. It's just like a PC, except for the fact that it measures only 97 x 97 x 25 mm ...

Maxi mini

It offers maximum performance despite its minimal size. This is because its powerful tablet-based Quad-Core Intel[®] Atom™ Z3735F processor expertly performs all of the common daily (office) tasks with great ease. Moreover, it offers attractive advantages such as fanless and absolutely noise-free operation and sensational energy efficiency. The MiniPC W1 may be black on the outside, but its green at heart.

Perfect design provides stability

Its design defends against the annoying problem of heat that persistently haunts PC sticks, thereby guaranteeing the constant performance for the processor, which can continue to work like a busy bee without feeling any effects. The design ensures that it is simple and convenient to reach all of the connections, including the power button.

Connection potential

With 1 x HDMI[®], 2 x USB 2.0, 1 x Micro-USB, 1 x audio out/mic in and a microSD card slot, it features a wide range of connection options, naturally including wireless Bluetooth[®] and WiFi connections. However, it is the integrated Ethernet interface that turns the MiniPC W2 into something special. Just imagine the stable, constant data transfer rate when uploading and downloading on a range of servers!

Windows 10

The MiniPC W2 is one of the first devices to be issued with the new Windows 10. This enables you to do more with ease – anytime, anywhere and across device boundaries.

A genie in fancy livery

The contemporary, low key design of the MiniPC W2 is by no means understated. It fits discreetly into any environment and only requires a space measuring 10 x 10 cm. Visible or hidden, it provides outstanding services: whether it be the main PC in the children's bedroom or a home office PC in a niche in the hallway or if it's used as a streaming box for the projector or TV in the living room or bedroom or for an Internet connection in the spare room.

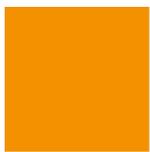

MiniPC W2

Small-format PC with Windows 10 Home, Intel Inside[®] and passive cooling

With multi-optional performance, impressive speed and round-the-clock availability, the TrekStor MiniPC W2 becomes a grey eminence for effectiveness and your master of ceremonies for entertainment.

See for yourself!

Technical details

Hardware

| | |
|-------------------------------|---|
| Processor (CPU) | Intel® Atom™ Z3735F processor with up to 1.83 GHz |
| Processor design | Quad core |
| RAM | 2 GB (DDR3) |
| Internal storage | 32 GB* |
| Graphic Unit (GPU) | Intel® HD Graphics |
| Interface | 1 x Micro-USB 2.0 (with host function), 2 x USB 2.0, card reader, WiFi, 1 x HDMI® 1.4, Bluetooth® 4.0, ethernet, DC IN, audio out/mic in (3.5 mm) |
| Supported memory cards | microSD, microSDHC, microSDXC (max. 128 GB) |
| Dimensions | ca. 97.5 mm x 22.5 mm x 97.5 mm |
| Weight | ca. 234 g (only the device without accessories) |
| Housing material | Plastic |
| Color | Black |

Other characteristics

| | |
|-------------------------|---|
| Operating system | Windows 10 Home |
| Power supply | power adapter |
| Package contents | MiniPC W2, power adapter (100 V - 240 V), Product Safety and Legal Information, quick guide |

Internet connection

| | |
|-----------------|-----------------------|
| WiFi | 802.11 b/g/n: 2.4 GHz |
| Ethernet | RJ45, 100 Mbit/s |

Record and playback

| | |
|----------------------------------|---|
| Video playback | Full HD (1080p) |
| Playable video formats | DivX, MPEG-4.10 H.264/AVC (MP@L4.1, HP@L4.0), MPEG-4.2 SP/ASP (e.g. Xvid) |
| Video container formats | AVI, MP4, WMV |
| Supported picture formats | BMP, GIF, JPEG, PNG |
| Playable audio formats | AAC, MP3, PCM, WAV, WMA |
