

DataStation[®] pocket click 3.0 KIT

Housing for 2,5" hard drives with USB 3.0 connector

The super-fast USB 3.0 connector allows a data transfer rate (read / write) up to 96,4 MB/s and 96,2 MB/s, so that you can instantly copy, move and save large files or file sets, such as videos, pictures or music. Of course, the housing is fully backward compatible with Hi-Speed USB 2.0 and USB 1.1.

Easy installation

The installation of your 2,5" hard drive into the DataStation pocket click is very simple: In only three steps and without screws the mounting is done within a few minutes. Furthermore, the housing of the DataStation pocket click consists of an elegant textured aluminium surface that provides an optimal protection of your hard disk.

Technical details

Hardware

Memory	KIT (without hard-disk)
