## SurfTab<sup>®</sup> xintron i 7.0

### 7" Android™ 5.1.1 (Lollipop) tablet with Intel® Atom™ Z3735G processor, 8 GB memory and 1 GB RAM

#### Takes on all of the challenges

Ever more, ever faster applications and programs are presenting our SurfTabs with new challenges. The Intel quad-core processor has proven itself to be a reliable, high-performance and surprisingly economical engine that masters even the most difficult tasks with ease and flexibility.

#### Intel! What else?

Thanks to many years of experience building processors and high standard of quality, our partner Intel has become a leading processor manufacturer. It provides our xintron series with processors that are nothing short of revolutionary. The Atom Z3735G delivers clock speeds of up to 1.83 GHz and uses 1 GB of RAM. This means you can post, surf, stream or play as much as you want! Have fun with your favourite apps, enjoy sharp 3D graphics and watch smooth, high-resolution videos without interruptions.

#### Flexible requirements, constant performance

The superb hardware features of the xintron i are rounded off with the latest Android operating system. But it doesn't have to stay that way, as the SurfTab xintron i 7.0 will automatically keep you up to date. It's always equipped with the latest Android version\*\*. Intel ensures you keep up with Google™ with future developments that make sure your SurfTab stays up to date.

#### Can it do more?

Both of the integrated cameras capture all the important, funny and simply wonderful moments in your life. You can also edit pictures straight away or any time afterwards using the refined camera app. Like other TrekStor SurfTabs, the new xintron i features a wide variety of interfaces. From the usual suspects right through to innovative wireless interfaces, the xintron i always has the right connection when you need it:

**Micro-USB** for exchanging data with other devices

**microSD/SDHC card reader:** The 8 GB of flash storage can be increased by up to 32 GB via microSD/SDHC cards.

**Headphone jack** enables you to enjoy personal music experiences.

**WiFi** provides a quick and reliable Internet connection.

**Bluetooth 4.0** enables swift and free data transmission between mobile devices with maximum energy efficiency.

**And finally, wireless image transmission** means that the 7" of your xintron i looks significantly bigger.
