

SurfTab[®] xiron 10.1 3G

10.1" Android™ tablet with quad core CPU, 3G support, 16 GB memory and 1 GB RAM

The TrekStor SurfTab xiron 10.1 3G brings everything that a successful series actor needs: a lot of talent, perseverance and good looks.

It offers everything you need, including all the extras such as a powerful quad-core processor, 3G and GPS.

Party of four

The xiron always delivers top-level performance with its quad-core processor, boasting a clock speed of 1,3 GHz as well as 1 GB DDR3 RAM. Nothing can slow it down. This really comes into its own particularly with high-resolution videos, mastering even demanding challenges such as action games with ease.

The xiron is also firmly established in the (Android-) scene: You can rely on the proven Android™ 4.2.2 to run without a hitch. You can also fully customise the device to meet your needs as Android makes the xiron as adaptable as a chameleon.

On the road

The xiron presents its skills with confidence: It is at home all over the world and knows its way around wherever you are. And you can benefit from this wealth of knowledge. With the xiron, discovering trendy hotspots or even locating a stylish lounge is a cinch. It knows exactly where to go with its precise GPS system.

An uninhibited performance

With the xiron 10.1 3G, you are at the heart of the action. It is ready to perform wherever you are. The xiron defies all boundaries and lets you experience freedom on the move. With the xiron, you can be online at any time, retrieve important information and respond accordingly, just have fun – or play against it or online.

It is not just its mobile 3G Internet that will draw your attention; the xiron also boasts superior flexibility. It even masters the old standards like WLAN and Bluetooth® with quiet confidence. The xiron and the digital world work together in perfect unison, allowing you to stay in the loop at all times via video chat and e-mail as well as stream the latest HD movies as and when you like. Or you can fulfil your every gaming fantasy with the xiron, which can handle both low-key role-playing or fast-paced 3D action-packed games.

SurfTab[®] xiron 10.1 3G

10.1" Android™ tablet with quad core CPU, 3G support, 16 GB memory and 1 GB RAM

With an expert and disciplined approach, the xiron unleashes all its potential for your enjoyment. Make good use of the possibilities that the xiron puts at your fingertips. There is something for everyone!

Transformer – variable and multifaceted

The whole world has been turned on its head – the xiron is causing a sensation with fantastic images and a highly touch-friendly interface. It is full HD-ready, making it perfect for use at home in our modern times. The device showcases a whole array of colours that remain true and sharp at whatever angle.

The xiron is very easy to operate thanks to its five-point multi-touch display. It is and remains a newcomer on the technology scene that is within your reach.

Be the director

As a cameraman, the xiron also shows unforeseen talent and has all the right attributes: Use the 2 MP front camera for chatting on the set and to hold video conferences, while the 5 MP camera on the back lets you film and photograph unique moments in exciting images. Take advantage of all the possibilities available to you with these cameras!

The xiron 10.1 3G is always more than happy to follow your stage directions, working behind the scenes with all its technical expertise – just as any good cameraman should be.

Keeping up appearances

And if this wasn't enough, the xiron always looks the part. The talented eye-catcher takes great pride in its sleek figure and, measuring 164 x 258 x 9,5 mm, is the perfect size – all without any diet or weight-loss regimen! Of course, the xiron places tremendous value in the choice of its shell. That's why it bears the classic colour combination of black and silver, with the fine brushed aluminium on the back drawing particular attention.

The xiron features a distinctive design that stands out in any crowd.

The xiron 10.1 3G leaves nothing to be desired. All you could possibly want now would be a secretary (the TrekStor[®] Bluetooth[®] Keyboard would do here, of course) to make your life even easier. But who knows? Perhaps your wish will come true...
