

SuperSpeed

USB 3.0

USB-Stick SLIDE 3.0

USB flash drive with SuperSpeed USB 3.0 interface and retractable connector

Super fast: The USB-Stick SLIDE 3.0 allows a maximum data transfer rate of 70 MB/s when reading data or 30 MB/s when writing data. Thus you can copy bigger data amounts between your PC or Mac[®] and the flash drive without annoying waiting time. In case your Computer is not compatible with USB 3.0, the USB-Stick SLIDE 3.0 will do its work anyway: for it is downward compatible and can thus be used with any USB 2.0 jack.

Immediately ready to start: The USB-Stick is preformatted and therefore ready to use immediately.

Practical: The handy slide hides the flash drive's connector inside, where it waits protected for its next use. An eyelet at the lower end of the USB-Stick SLIDE 3.0 makes it possible to attach a lanyard and thus to always have your flash drive ready at hand.

Technical details

Hardware

Memory	32 / 64 GB
Interface	1 x SuperSpeed USB 3.0
Color	Silver
Dimensions (W x H x D)	54 mm x 19.1 mm x 7.9 mm
